PROFILE

Hello, my name is Aljosa Njezic and I'm a Junior Developer.
I'm basing myself on Web Development as a Frontend Developer.
I am currently working with the ReactJS(JavaScript library).
I also know the basics of working in NodeJS and MongoDB.
My goal is to become a Full Stack Developer(MERN).
I have no education / degree in this profession
I learned about programming online. On websites such as Udemy, Pluralsight, Youtube and other sites about programming.
I also had experienced programmers as mentors.
I like challenges and am open to the upcoming stages in the job...

EXPERIENCE
